3) **Aşağıdaki şekillerdeki <u>en uzun</u> kenarları işaretleyiniz.**

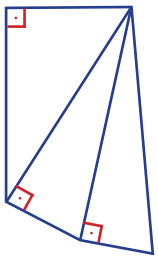

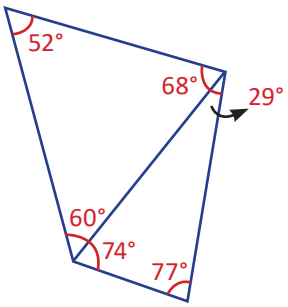

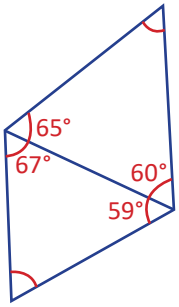

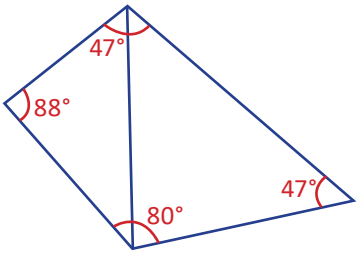

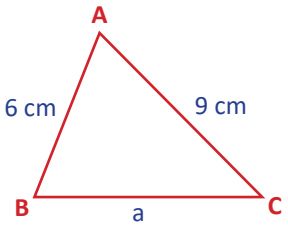

4) **Aşağıdaki şekillerdeki <u>en kısa</u> kenarları işaretleyiniz.**

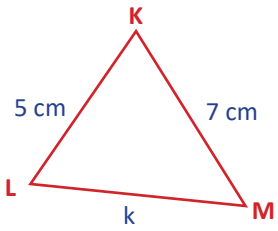

5) **Aşağıda verilen üçgenlerde, uzunluğu verilmeyen kenarların uzunluklarına ait değer aralığını bulunuz.**

$s(\hat{A}) > s(\hat{C})$
olduğuna göre;

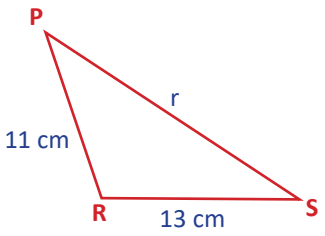

..... < a < .....

$s(\hat{L}) > s(\hat{K})$
olduğuna göre;

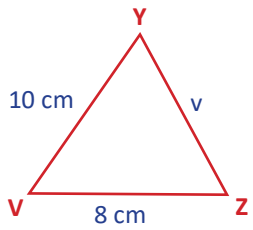

..... < k < .....

6) **Aşağıda verilen üçgenlerde, uzunluğu verilmeyen kenarların alabileceği en büyük ve en küçük tam sayı değerlerini bulunuz.**

R açısı en büyük açı olduğuna göre;

en büyük
r
en küçük

Y açısı en küçük açı olduğuna göre;

en büyük
v
en küçük

7) **Aşağıdaki ifadelerin doğru mu yanlış mı olduğunu belirleyiniz.**

- ( ) Bir üçgende en uzun kenar en büyük açının karşısındadır.
- ( ) Geniş açılı üçgende en uzun kenarlar geniş açının kollarıdır.
- ( ) Bir üçgende bir açı diğerlerinden büyük ise, karşısındaki kenar diğer kenarlardan kısadır.
- ( ) Dik üçgende en uzun kenar dik açının karşısındaki kenardır.
- ( ) İkizkenar üçgende eşit olan açıların karşılarındaki kenarların uzunlukları eşittir.
